

PROFILE

'A multi-skilled and passionate software engineer with a great record of developing and maintaining good quality frontend applications using React and other UI libraries. I have a good 4+ years of experience in creating UI's for GPT. Additionally, I have design experience with some of Adobe packages; creating illustrations, logos and others. Born a leader, I have a willing spirit to learn and can easily adapt to changes

HOBBIES

- Playing Football
- Singing
- I love Technology and Creativity. I love good designs

AKO DESMOND OBEN

REACTJS + NODE DEVELOPER (4+ years)

EDUCATION

B.Eng in Computer Engineering

03/05/2016 - To - 15/12/2020

Graduated from the University of BUEA with a second class upper and a GPA of 3.31.

Government High School

01/09/2014 - To - 30/06/2016

Graduated overall best student in the science department.

WORK EXPERIENCE

Grace Publishers and Technology (GPT)

From 2016 - To - 2020

I worked at GPT as a developer, using MERN and MEAN Stack as technology. We built a couple of applications but one of my best was the myeazyschool application; An education platform where tutors make videos on topics of the courses they teach and students could create accounts, subscribe to the application and can access all the information on the platform based on their subscription.

SKILLS
